CPC CONTROLLERS

- Wall controllers (internal transformer).
- Outdoor.
- Electrical controlled.
- Easy program.
- Easy installation.
- 4, 6 or 8 stations available.

CRC CONTROLLERS

- Wall controllers (external transformer).
- Indoor.
- Electrical controlled.
- Easy program.
- Easy installation.
- 4, 6 or 8 stations available.

1

CTA075 & CTD075 CONTROLLERS

- Tap controllers.
- Easy installation directly to the hose.
- Battery controlled.
- Digital or analogical.
- Very easy program.
- Ideal for small gardens or green spaces.

CLC100 CONTROLLER

- Compact controllers.
- With 1" valve incorporated.
- Battery controlled.
- Weather resistant.
- Ideal for underground installations.

2 CEPEX SPRINKLERS CSP

- 1/2" and 3/4" sprinklers.
- Tested quality.
- Automatic arc return.
- From 4,57 to 11,28 m.
- Arc setting: 40 to 360 degrees.
- 27 nozzle choices.

3 CEPEX SPRAY HEADS CSH

- Enhanced cap for more durability, easier handling, and extended riser seal life.
- Male threaded riser to accept all female nozzles.
- Extra large filter screen.
- Preinstalled Cepex Adjustable Nozzle optional.

4 CEPEX ADJUSTABLE NOZZLES CAN

- Crisp, well-defined edges.
- Easy grip top for simple adjustment.
- Color-coded for easy field identification.
- Adjustable from 0° to 360°.
- From 4,57 to 14,02 m.

5 CEPEX ELECTRIC VALVES CPV

- Plastic electric valves (glass reinforced Nylon).
- Sizes from 3/4" to 3".
- Flow regulator in all models.
- 24 VAC for electric controllers or 9V for battery controllers.
- Ergonomic and compact design.
- Total opening and security drip closing.
- Spring and bolts in stainless steel.
- Working pressure 0,7-10 bar.

CEPEX SYSTEM

Cepex is a brand belonging to Fluidra group, with more than 30 years of experience in the market. Our main objective is to take care of the quality and environment, doing periodic essays and getting the ISO9001 and ISO14001 certificates.

Cepex distributes its products worldwide through the Fluidra sales network and other distributors. In the irrigation market, Cepex is manufacturer for some of the components, and distributor of the rest, providing our customers with complete Systems for turf irrigation. With so many years in the market, Cepex knows well its clients and all the market needs, so we are capable of giving the appropriate products in each case.

With our new range of products Cepex branded, we have selected the latest products in the market to offer the best RESCOM irrigation range. A complete range which lets you offer your costumers a reliable and safe irrigation system and have easily any installation.

Sprinklers, spray heads, electric valves, controllers, valve boxes, fittings, micro irrigation, filtration and dripline: all of them with Cepex guarantee.

And if you need, we can advise you to carry your Project out.

Cepex irrigation system: A STELLAR RANGE.

6 CEPEX VALVE BOXES PRO SERIES

- High-impact polypropylene construction for long life and strong performance.
- Polypropylene is U.V.
- Overlapping covers prevent dirt and grass.
- Factory pierced slots for pipe.
- Ergonomic slot on body allows for easy cover removal.
- Vandal resistant bolt lock cover.
- Beveled cover edges help prevent damage.
- Built-in space for control Systems.

7 CEPEX MICRO IRRIGATION FITTINGS

- Complete range of micro sprinklers, micro spray heads, dripper, stakes and fittings for the low volume irrigation.

8 CEPEX VALVES AND FITTINGS

- PVC pressure fittings and PP compression fittings.
- PVC ball valves and butterfly valves.
- PVC manifold fittings.
- Clamp saddles and SB fittings.
- All of them, with the quality and guarantee of more than 30 years of manufacture.

9 CEPEX DRIPLINE

- Ideally suited for big irrigation areas with lots of ramifications; intensive irrigation, trees/bushes irrigation or green houses.
- Cepex **FLATLINE**: Dripline with bond-on emitter, easy to install and to maintain; protection against hits.
- Cepex **PCFLAT**: Dripline with pressure compensating bond-on emitter; easy to install and to maintain; protection against hits. Self compensating chamber with protection membrane; protection against plugging and uniform pressure and flow.
- Cepex **DRPLINE**: Integral cilindric dripline; ideal for big flows.
- Cepex **PCDRIP**: Dripline with pressure-compensating dripper; ideal for big flows. Self compensating chamber with protection membrane; protection against plugging and uniform pressure and flow.
