

VALVE BOXES

ARQUETAS

FEATURES

- Valve boxes for underground construction or irrigation systems.
- Ideal protection for manually operated valves, electrovalves, watermeters, etc.
- EN124 A15 compliant.
- Allow access to those parts of the installation where easy access for maintenance and control is crucial.
- Smart, lightweight and easy to transport.
- Body in black high-impact strength polypropylene. Cover in green polypropylene.
- Designed to perform under a variety of outdoor conditions.
- Overlapping covers prevent dirt and grass from settling in between body and cover.
- Factory pierced slots for pipe. Allow fast, trouble-free and cost saving installations.
- Ergonomic slot on body allows for easy cover removal.
- Beveled cover edges help prevent damage to covers from lawn machines.
- Applications in all sorts of canal networks: drinking water distribution, irrigation, spraying, etc.

CARACTERÍSTICAS

- Arquetas para montajes enterrados de riego y construcción.
- Protección ideal para válvulas manuales, electroválvulas, contadores de agua, etc.
- Cumplen la norma EN124 A15.
- Permiten un fácil acceso a los elementos de la instalación, que requieren eventualmente intervenciones de mantenimiento o de control.
- Estéticas, ligeras, apilables y fáciles de transportar.
- Cuerpo en polipropileno de alta resistencia color negro y tapa del mismo material, color verde.
- Gran resistencia mecánica y a los agentes atmosféricos.
- La superposición de las tapas en el cuerpo previene la acumulación de suciedad o hierba entre el cuerpo y la tapa.
- Ranuras para tubo troqueladas de fábrica. Facilitan instalaciones rápidas, sencillas y económicas.
- Ranura ergonómica en el cuerpo, permite una retirada de la tapa más cómoda.
- Bordes de las tapas biseladas, ayudan a prevenir daños causados por la cortacésped.
- Utilizables en todas las modalidades de canalización: distribución de agua potable, riego, aspersión, etc.
